

Alternative to Installation of Wall Ties

Remember the alternative to re-tying your property is to knock down your outer skin which will incur a cost of approximately 25 x the price of re-tying in just a fraction of the time.

Our re-tying systems are a tried and test method that has already been used in over 3 million properties so far.

When dealing with PAM Ties, you can call on our 50 years experience. No job is too small or too large and anything that you are not sure of, you can ring us and one of our engineers will be happy to discuss your concerns.
